Nouveau Contour  
Pigments

## The NEW Nouveau Contour pigments: more colors, more choice, for an even more natural result.

### Organic pigment line

**Very high concentration of pigment, bright colors, limited follow-up treatments.**

The Organic pigments of Nouveau Contour are organic and free of iron oxides. The product composition contains less alcohol: the same pigment volume contains more pigment. The result? A higher concentration of pigment will remain in the skin, resulting in bright colors. An additional advantage is that the low concentration of alcohol will dry out the pigment less quickly.

During the procedure, the pigment is more easily inserted into the skin. The colors remain clear and fresh. After healing, the results are very natural and follow-up treatments are limited.

The Organic pigment range includes 33 colors, 9 eyebrow colors, 3 eye colors, 12 lip colors, 4 camouflage colors and 5 areola colors.

- 100% organic pigments
- Free from iron oxides
- Less alcohol
- Higher concentration of pigment
- Bright colors
- Very natural results

## Eyeliner pigments

100 - Just Black

## Fusion pigment line

**No migration, bright colors and good pigment retention.**

The Fusion line combines organic and inorganic ingredients in an innovative pigment formula.

The advantage of the inorganic component is that the pigments remain very stable in the skin so there is just a minimum chance of migration. The organic component -free from iron oxides- ensures the clear color and good pigment retention. Color changes to gray or red are now a thing of the past. After healing, the colors are extremely soft and very natural.

This pigment line is indispensable for eyebrow treatments. Nouveau Contour Fusion pigments are ideal for the ombre technique with amazing results. Hair strokes can also be set very accurately and perfectly.

The Fusion line includes 12 eyebrow colors and 4 correction colors.

- Innovative pigment formula
- Free from iron oxides
- Very low chance of migration
- Bright colors
- Good pigment retention
- No color changes to gray or red
- Very natural results
